Debt Strategy

avalanche snowball

Switch scenario/strategy to see KPI and payoff differences.

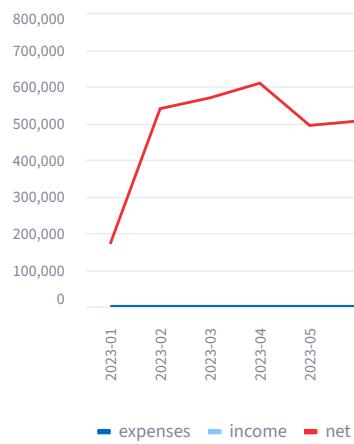

Household Financial Wellness & Debt Dashboard

Educational, non-advisory dashboard using cleaned transactions and synthetic debt data. Use Scenario and Strategy controls to explore savings and debt payoff impacts.

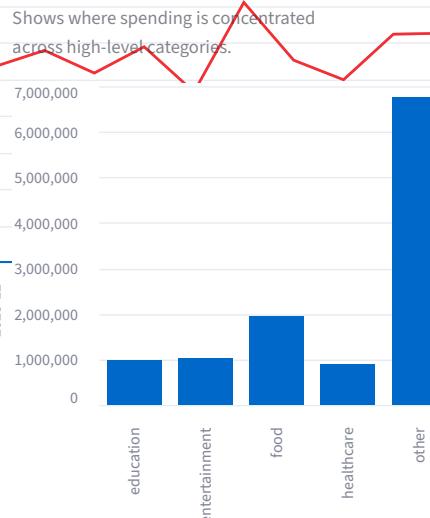

Monthly Income Monthly Expenses Monthly Savings Savings Rate Wellness Score
 431,92... 539,90... -107,9... -25.00% 42.38/...

Income vs Expenses Over Time

Tracks monthly income, expenses, and net cashflow (income minus expenses).

Expense Breakdown by Category

Current Debts

Balances, APR, and minimum payments for the sample household debts.

Snowball vs Avalanche (Baseline Comparison)

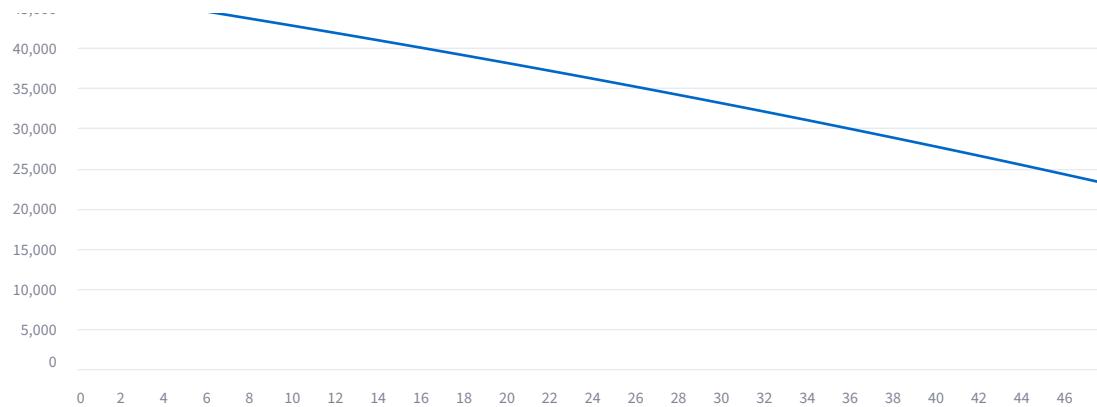

Compares payoff duration and total interest paid under each strategy.

	debt_id	current_balance	strategy	months_to_payoff	total_inte
0	D1	5200	avalanche	9.9	82
	D2	12400			
1	D3	8600	snowball	210	83
2	D4	3100		95	
3	D5	17800		320	

Debt Payoff Timeline (Total Balance)

Shows remaining total debt balance over months under the selected strategy (baseline).

Stress Scenario Impact (Avalanche)

Shows how stress scenarios change the payoff timeline and total interest under the Avalanche strategy.
